

Preface

This volume of *De lege* includes articles and speeches by many of the recent honorary doctors within the Faculty of Law, Uppsala University. The contributions cover a wide range of different topics. Included are several of the speeches given by the new honorary doctors to members of the Uppsala faculty the day before the Conferment ceremony. With a few exceptions, none of the contributions have previously been published, and if so, in a limited form. All of the contributing authors have a long-standing relationship with the Uppsala Law Faculty and take part in the different educational and research activities at Uppsala University.

I wish to thank all the contributing authors for their co-operation in making this volume possible. A special thank you to Professor Iain Cameron who assisted in some matters. The Emil Heijne Foundation for the support of legal research (“Emil Heijnes stiftelse för rättsvetenskaplig forskning”) has generously supported the printing.

Uppsala, 12 March 2019
